Fractures around the Knee

OTC Advanced
Course with
Cadaver Workshop

September 13–14, 2010 • Lucerne, Switzerland

COURSE CHAIRMEN

Prof. K.S. Leung, Prince of Wales Hospital, Hong Kong, P.R. China

Prof. Raffaele Pascarella, Ospedale Maggiore, Bologna, Italy

COURSE DESCRIPTION

The course will focus on fractures around the knee, the distal femur and the proximal tibia. Many aspects will be treated, including a step-by-step description of the surgical approaches. Focusing on technical tricks and pitfalls, the course also covers the different options for fracture management in routine and complex knee injuries.

In addition to lectures, hands-on cadaver workshops allow participants ample opportunities to improve their skills on approaches and fracture fixation. In small discussion groups, participants can present and discuss their most difficult cases with experienced international faculty members.

TARGET AUDIENCE

This course is aimed at the more experienced surgeon (senior trainee, fellow or consultant).

CME

This OTC course will be accredited for continuing medical education (UEMS/EACCME). The final information and number of credit points will be shown on your course certificate, which is handed out at the end of the course.

SCHEDULE

On Monday, September 13, 2010 the course will start at 08:00 AM and it will end on Tuesday, September 14, 2010 at 13:30 the latest. The final program will be available in June and can be downloaded from our homepage at www.otcfoundation.org.
